Achieve a Certificate in Workplace Effectiveness
Your internship is a key component of the Certificate in Workplace Effectiveness. During the program it is important that participants develop an understanding of the skills needed by professionals in the workplace. As part of the Professional Internship Training Program all participants are required to complete an online learning component that complements their internship and training plan. This will assist in building workplace effectiveness skills and enhance the career development experience.

Navitas Professional Internships in the UK
Program participants spend time immersed in a host organisation alongside industry professionals. The program length can be tailored to individual needs, however the recommended duration is 12 weeks for an effective workplace experience so participants get the most out of their internship.

Navitas Professional and your host organisation will create a training plan and allocate a mentor so you, the participant, will get the most out of your internship and UK experience. Take the opportunity to gain international experience and fill the gap between university and your career.
